VISUAL DESIGN

AND

BRANDING

Brand Colours

Why we choose Green and Black ?

We us green colour because Green is the color of life and nature. It reminds us of growth, freshness, and balance. Whether it's the leaves on a tree or a calm, open field, green has a way of making us feel at peace. It's also tied to ideas of good fortune and sustainability, making it a symbol of both prosperity and care for the planet. From bright lime to deep emerald, green feels alive, calming, and full of possibility.

Black is a color that stands out without trying too hard. It's often seen as strong, mysterious, and classy. Whether it's in a sharp suit or a little black dress, it's the go-to color when you want to look polished and confident.

Image Direction

At Zentea, we prioritize a minimalistic design approach, ensuring that our visual elements are clean, elegant. This aesthetic enhances user experience but also aligns with our brand's focus on simplicity and sophistication.

We maintain strict standards for image quality, ensuring all visuals are high resolution and optimized for clarity across various screen sizes and devices. Every image is crafted to maintain its integrity, enhancing the overall professionalism and polish of the app.

Logotype

The logo features a tea cup with steam representing the beauty of Zentea name, intertwined with a delicate flower symbolizing growth, beauty, and connection to nature. The background colors of green levels and black reflect the enchanting colors of the Zentea
